PROFILE

Junior .NET Core Developer passionate about building scalable and efficient backend applications using ASP.NET Core, C#, Entity Framework Core, and SQL Server Skilled in developing RESTful APIs implementing clean architecture principles, and creating maintainable software solutions Eager to learn, grow, and contribute to high-quality development teams.

TECHNICAL SKILLS

- **Backend:** C# | OOP | SOLID Principles | Design Patterns | LINQ | ASP.NET CORE MVC | ASP.NET CORE WEB APIS | REST API
- **Database:** MSSQL Server | Entity Framework Core
- **Frontend:** HTML | CSS | JavaScript | Bootstrap
- **Tools:** Git & GitHub | Postman | Swagger

PROJECTS

Shopping Management System | <https://github.com/HassanSoliman1/Shopping-Management-System>

- Developed a scalable **RESTful Web API** for an e-commerce platform using ASP.NET Core.
- Implemented secure user authentication and role-based authorization with JWT and ASP.NET Identity.
- Built CRUD operations for products and categories using Entity Framework Core and SQL Server.
- Developed shopping cart and order management APIs.
- Integrated Stripe API for secure online payment processing.
- Implemented email confirmation during user registration.
- Uploaded and managed product images using the server file system.
- Documented and tested all endpoints using Swagger/OpenAPI.

Clinic Management System | <https://github.com/HassanSoliman1/MediCare-ClinicManagementSystem>

- Developed a clinic management system using **ASP.NET Core MVC** and Entity Framework Core (Code First).
- Implemented secure authentication and role-based authorization for Admin, Doctor, and Patient using ASP.NET Core Identity.
- Built CRUD modules for doctors and specialties with doctor image upload, data validation, and custom ViewModels.
- Developed an appointment booking and tracking workflow with ownership-based authorization and status management.
- Created an admin dashboard with real-time statistics and responsive UI using Bootstrap 5.

Hotel Booking System | [Github](#)

- Built **RESTful APIs** for reservations, room availability, and customer management.
- Designed a scalable database using Entity Framework Core and SQL Server.
- Used AutoMapper to simplify object mapping and improve code maintainability.

PROFESSIONAL TRAINING

Full Stack .NET Trainee

Route Academy | 2025

- Completed an intensive **Full Stack Web Development** Diploma with a strong focus on modern web application development.
- Built real-world projects using C#, ASP.NET Core MVC, ASP.NET Web API, Entity Framework Core, SQL Server, HTML5, CSS3, JavaScript, Bootstrap, and Angular.
- Strengthened skills in Object-Oriented Programming (**OOP**).
- Improved **database design** skills.
- Gained basic knowledge of **Angular** for frontend integration.

Software Development Trainee

Route Academy | 2025

- Completed a 4-month IT Masters Diploma at Route IT Training Center.
- Built a strong foundation in Computer Science and **Software Engineering**.
- Studied C++, Java, and Object-Oriented Programming (OOP).
- Learned Data Structures & Algorithms and Database Fundamentals.
- Strengthened problem-solving skills through practical assignments and projects

EDUCATION

Bachelor's Degree in Computer Science

Sep 2019 – Jun 2023

Modern Academy for Engineering and Technology

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Time Management
- Continuous Learning

LANGUAGES

Arabic | Native

English | Intermediate
